

SuperGrip Top™

A bright red bright idea.

Part #:

0409100	A/13 mm	100'
0409200	B/17 mm	100'
0409300	C/22 mm	100'

PowerTwist SuperGrip Top combines the easy installation and maintenance features of PowerTwist Plus V-Belting with the superior conveying capabilities of a high grip PVC top surface. The combination of the high performance polyester/polyurethane composite material of PowerTwist and a PVC top results in low belt stretch and excellent durability in operation plus positive grip on conveyed product.

Key features:

- PVC SuperGrip Top for excellent product holding power
- Tough PowerTwist base belt
- Ideal for use on incline and decline conveyors
- Transports heavier loads than field-weldable reinforced polyurethane belting
- Easy installation with no tools or welders required
- No need to dismantle conveyor drive components
- More up time = less downtime
- Any belt, any time 24/7
